Q: I'm having some plumbing work done and need to shut off the water to my building.

A: If you live on the 12660 - West side, please notify Linda Kempter at lindakempter@sbcglobal.net so that your building can be notified. If you live on the 12680 - East side, please notify Margaret Diehl at diehl_ml@yahoo.com so that all East side buildings can be notified. The water shut-offs for your building are the Dallas Water Utilities meter(s) with their locations as shown on the attached spreadsheet. Your meter(s) must be shut off by your plumber before the repair starts and turned back on when the repair is completed.

All water shut-offs also require phone notification to Veracity at 214-368-3388 or email to coordinator@veracityinc.com or lori@veracityinc.com.

"We request 48 hour advance notice to Linda or Margaret, and to Veracity for all non-emergency water shut-offs."
